

Dear young global Estonian!

The newly-established Estonian Worldwide Youth Network (e-WYN) (Estonian: *Ülemaailmne Eesti Noortevõrgustik - ÜENV*) is organising the first-ever Youth Virtual Days, to bring together young people with Estonian roots from across the globe! We want to hear your thoughts!

We invite all those from ages 14-30, who speak conversational Estonian, to come discuss and learn with us!

Furthermore, we are keen to hear your thoughts in English and in Russian; if you are more comfortable in those languages, please do not hesitate to ask us about how best to participate.

The Virtual Days provide an opportunity for you to meet other interesting Estonian youth, discuss what it means to be Estonian, and to make your own contribution to the Estonian government's [Global Estonian commission](#). Our discussions now are critical for the future of our communities!

The Virtual Days will take place over Zoom in roughly 2-hour sessions over two consecutive Saturdays: **May 30 and June 6**. They will begin at **17:00, Estonian time** (GMT+3). Those who participate actively will be awarded the title of *2020 Global Estonian Youth Ambassador*, which will be recognised through a certificate signed by Estonian Population Minister, Mrs. Riina Solman.

We eagerly await input and thoughts from global Estonian youth on various topics, including on language and education, communication, cultural exchange and cooperation, economic opportunities and investment, moving to Estonia, and much more!

Your input is valuable and discussions from the Virtual Days will inform the work of the aforementioned global Estonian commission of the Estonian government.

You may register for the Virtual Days here: <http://bit.ly/virtuaalpaevad>.

If you have questions, please write us in Estonian, English or Russian at: noored@globalestonian.com

See you at the Virtual Days!
